## DESCRIPTION

The OP technical stool collection, available with a synchronized or permanent contact mechanism, is designed to meet the needs of professional environments that require high comfort and performance. Equipped with a padded backrest, available in two versions – medium and low – these stools offer versatile and customizable solutions to adapt to various technical and operational applications. The ergonomic design ensures maximum support throughout the entire workday, while the advanced adjustments allow for position customization to promote correct posture and reduce fatigue. The robust structure and high-quality materials ensure reliability and durability over time, making this collection ideal for technical offices, laboratories, and workstations with height-adjustable tables. With a perfect balance of functionality and comfort, this line of technical stools represents a practical and stylish solution for modern operational spaces that require versatility and superior performance.
