

DESCRIPTION

The ZHT chairs are characterized by an elegant and functional design, with light and enveloping lines that ensure comfort and sophistication. The frame is available in two base options: the skid version, which gives a modern and dynamic look, and the four-legged version, which adds a more traditional and stable touch. These two aesthetic solutions offer the possibility of creating different combinations, easily adapting to a variety of contexts and furniture styles. The precisely studied proportions are perfect for meeting rooms and innovative smart offices, where ergonomic comfort and contemporary design are essential. The chairs integrate seamlessly into both more formal environments and modern, dynamic offices, offering a light and welcoming visual presence.
